

Benefits of SPACES Membership

- Development of knowledge and skills for the mutual benefit of members and their employers both online and through our highly popular annual Study Day event.
- Access to a national multi-disciplined society covering all local authority and private sector service providers.
- Ability to shape construction, architecture engineering and surveying matters in the public sector.
- Ability to influence decision-makers through SPACES's vision, objectives and plans.
- Opportunities to contribute to research through regions and technical groups.
- Access and networking to our fellow members' experience and knowledge.
- Engagement with a recognised centre of excellence and organisations.
- Direct access to members in all sectors of public services.

Membership Criteria

● Full Members

Professionals working for either a public or private sector organisation, providing construction or property related services to a local authority or other public sector.

● Retired members

Those who have retired from work and want to keep in touch.

● Honorary members

Those that SPACES wishes to honour.
